FOREWORD

Cyber Utsav first launched in Kathmandu with great success, drawing hundreds of participants and notable guests, including VIP speaker Sid Ghimire. The event sparked energy, innovation, and collaboration across the tech community. It served as proof that Nepal's young minds are eager for opportunities to solve real-world problems and showcase their digital potential on a national stage.

Building on this momentum, Cyber Utsav is now expanding to five major cities across Nepal. This nationwide hackathon aims to inspire, connect, and empower the next generation of tech innovators. Through hands-on challenges, expert mentorship, and strategic partnerships, we are creating a platform where talent meets opportunity. We welcome you to join us in shaping Nepal's digital future.

EVENT PROPOSAL

Event Background
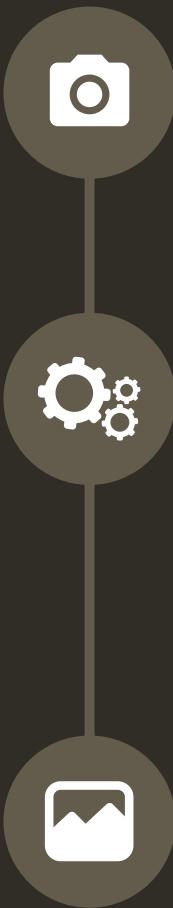

Cyber Utsav began as an initiative to bridge the gap between emerging tech talent and real-world innovation. First hosted in Kathmandu, the event brought together diverse participants to collaborate, code, and create. Its success reflected a growing demand for tech-focused platforms in Nepal. With this momentum, we are now expanding Cyber Utsav to five cities across the country.

With each city bringing its own unique energy and talent pool, Cyber Utsav aims to build a nationwide network of innovators. By encouraging collaboration between students, professionals, and industry leaders, the event fosters practical learning and meaningful connections. This expansion reflects our commitment to nurturing Nepal's digital ecosystem and creating opportunities across geographic and social boundaries.

Event Objective

Introducing Hackathon

Join us for an exciting hackathon where innovation meets collaboration. Talented minds will come together to build creative solutions, solve real-world challenges, and showcase their skills in a fast-paced, engaging environment. Whether you're a coder, designer, or problem-solver, this is your chance to shine.

Build and Strengthen Tech Communities

We aim to bring together developers, creatives, and innovators to share knowledge, build meaningful connections, and foster a vibrant, collaborative tech community that thrives beyond the event.

Foster Innovation and Creative Problem-Solving

We empower participants to think beyond boundaries, create bold solutions, and explore new ideas. The hackathon fosters a fast-paced environment where innovation thrives through teamwork, experimentation, and fresh perspectives.

EVENT PROPOSAL

Event Activity

Project Development

SPEAKER

Siddarth Ghimire
Senior Developer

Teams begin building solutions, brainstorming creative ideas. Code is written, tested, and improved with care. Collaboration drives progress in a fast-paced environment. Development continues through multiple focused hours. The goal is a working product by the final phase.

Project Presentation

Completed projects are showcased clearly, explained with confidence, and presented to expert judges. Each team highlights key features, goals, and impact. Judges evaluate on creativity, execution, and innovation. This is a high-energy, exciting moment for all.

Award Ceremony & Feedback

Top teams are recognized for excellence and creativity. Judges share insights and feedback to help teams grow. The atmosphere is celebratory, with cheers and applause. Awards inspire and motivate everyone to keep building. The event concludes with pride and memories.
